QUALITY VINYL REPLACEMENT WINDOWS

The
Lynnfield
Collection

The Lynnfield Collection of quality vinyl replacement windows represents the perfect blend of thermal efficiency, value and beauty. Drawing inspiration from finely crafted wood windows, The Lynnfield Collection improves on this timeless aesthetic with superior thermal performance and weatherability. With the best of modern manufacturing technology and a lifetime limited warranty, the Lynnfield Collection is the solution to your replacement window needs.

STANDARD FEATURES

1. **4-point fusion welded frame and sash** corners never pull apart or rack out of square.
2. **Maintenance free multi-chambered vinyl** provides superior strength and thermal efficiency.
3. **Craft-detailed sash interior** simulates the elegance of wood.
4. **Tamper resistant interlock** spans the full width of the window to ensure that drafts and the elements stay out.
5. **Ergonomic lift handles** are integral with the sashes and cannot pull loose.
6. **True sloped sill** sheds water quickly and can be wiped down easily to remove debris.
7. **Compression bulb seal** at the sill provides an excellent defense against wind and rain.
8. **Mylar-fin synthetic weatherstripping** enhances resistance to air and water infiltration.
9. **Double cam locks** securely lock the sashes together.
(Single lock on windows under 24" wide)
10. **Slim line tilt latches** allow sashes to tilt in for easy cleaning without cluttering the aesthetics.
11. **AAMA forced-entry resistant night locks** engage to limit sash movement for safe ventilation.
12. **G3 constant force stainless steel balances** provide quiet, adjustment-free operation.
13. **Dual paned insulated glass** features Intercept spacer system and optional IntelliGlass Low E.
14. **Low profile insect screen** has integrated removal tabs and BetterVue improved visibility screen mesh.

2100 Double Hung

Performance is vital when selecting replacement windows. The

Lynnfield Collection combines lovely aesthetics with proven performance to create true value. With windows in more than one million homes, Vinylmax offers a transferrable Lifetime Limited Warranty to ensure your satisfaction.

Windows can account for almost one quarter of household energy use. Since most homeowners replace their windows only once in a lifetime, choosing ENERGY STAR qualified products is more important than ever.

Installing the Lynnfield Collection ENERGY STAR qualified windows and doors shrinks energy bills and carbon footprints by 7-24% compared to non-qualified products.

The Lynnfield Collection can be specified with various IntelliGlass package options designed to meet ENERGY STAR qualifications for each climate zone in the USA. The secret to IntelliGlass is ClimaGuard Low E glass. Here is how it works to make your home more energy efficient:

- Two microscopic layers of silver reflect heat back to its source
- Titanium dioxide layer protects the silver, so it lasts for a lifetime.
- Your home is cooler in the summer, as solar heat is reflected away.
- Your home is warmer in the winter, as furnace heat is reflected back into the home.
- Argon or Krypton gas acts as insulation between the panes of glass.

Founded in 1982 by the Doerger family and manufacturing a mere five windows per day, the Vinylmax legacy began to unfold. As one of the first vinyl window manufacturers in the United States, Vinylmax embraced the philosophy that quality custom windows manufactured quickly would inspire loyalty in its customers. A transferrable Limited Lifetime Warranty on all Vinylmax products is Vinylmax's commitment to that quality.

Today the Doerger family continues to embrace that philosophy. Millions of American homes are more beautiful and more energy efficient, thanks to Vinylmax windows.
